The Adams County Board of DD has two tax levies that are each .8 mil. Although this should generate 1.6 million dollars annually, it is approximately \$640,000.00 in annual revenue. The tax levies are old and the loss of the power plants has decreased our revenue by almost \$500,000.00 each year. We currently operate on tax revenue, Medicaid reimbursement programs and rental income. We will need to go back on the ballot in 2026/27, at which time the county board will need to carefully consider what type of levy is needed to operate the annual budget of 1.2 million dollars. The Adams CBDD must certify \$600,000.00 annually in Medicaid Match Funding for the individuals who receive services through Medicaid Waivers.
